### UDV2 CAR REVEAL DAY

On September 26th, our SAE Baja team proudly unveiled our second-generation car, a major milestone in our club's growth. Sponsors, parents, and supporters joined us for presentation of our progress and goals, followed by the first public reveal of our new vehicle featuring improved performance and a sleek new look. We're deeply grateful to everyone who attended and continues to support the teamwork and innovation driving our club forward.

### SAE CAROLINA

Our team recently competed at SAE Carolina with our new second-generation car, our first event with this vehicle. It was an exciting test of our design, teamwork, and problem-solving under real competition conditions. The experience helped us learn, adapt, and identify ways to improve. We're proud of our progress and ready to push even harder in future competitions.

## WE WRAP

We partnered with WEwrap to give our second-generation car a bold new look. Their professional wrap, featuring clean lines and vibrant sponsor logos, makes our vehicle stand out. We're thankful to WEwrap for helping us highlight our team's dedication and innovation.

We hit another major milestone with the purchase of our own trailer, a huge step forward that gives us reliable transportation for competitions and events. Huge thanks to Rodoc Leasing Sales and Service for their generous discount and continued support!

## New Exec Board

- **Simeon McAdams - President**
